Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Applicant's new extensive and specific arguments set forth in the Appeal brief, received 11/15/2004, are persuasive. Commensurate with the claimed invention and the specification, in light of sections of the Appeal Brief as noted above, Examiner contends that the prior art of record does not clearly disclose or suggest the use of an intermediate fault tolerant storage (sub)system (FTSS) which acts as a store and forward facility (SAFF) for each and every single distinct packet transmitted on the network to other nodes via the FTSS/SAFF. That is, the storing and forwarding facility functionality of the fault tolerant storage subsystem performed at the network packet level is not fairly taught or suggested by the prior art of record. This functionality is persuasively argued, inter alia, in Pages 6 and 9, and has support in the present specification, inter alia, at Pages 10-12, 15-17, and 20-21, and Figure 4, additionally as recited by Appellant in Page 9 of the Appeal Brief.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
